-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. This Office Action is responsive to the Amendment filed 3/4/05.
2. The Amendment filed 3/4/05 successfully overcomes the rejections set forth in paragraphs 1 and 2 of the Office Action mailed 12/8/04. Accordingly, these rejections are withdrawn.

Claim Objections

3. Claim 3 is objected to because of the following informalities: in line 1, "ration" should be corrected to --ratio-- (see original claim 3). Appropriate correction is required.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 and 5-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 2002/0101552 to Yi et al. (Yi) in view of US 6,022,647 to Hirose et al. (Hirose) for the reasons of record as set forth in paragraph 3 of the Office Action mailed 12/8/05, and as further discussed below.

Response to Arguments

5. Applicant's arguments filed 3/4/05 have been fully considered but they are not persuasive. With respect to the 35 USC 103 rejection over Yi in view of Hirose, Applicant argues that Hirose fails to teach or suggest the claimed banks or a method including the claimed step of forming banks on the reflection layer. However, it is the position of the Examiner that the barriers of Hirose correspond to the banks of the present invention. The barriers of Hirose have ink repellant characteristics, and prevent mixing of differently colored inks which are charged onto the substrate using an ink jet-recording apparatus (e.g. see column 3, lines 16-32 of Hirose), as do the banks of the present invention.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
